JONES COUNTY ON-SITE SEWAGE PERMIT
JONES COUNTY P.O.
BOX 148
ANSON, TEXAS 79501

ALL ON-SITE SEWAGE FACILITIES REQUIRE A
PERMIT IN JONES COUNTY

PROCEDURE FOR ON-SITE SEWAGE FACILITY

APPLICATION, CONSTRUCTION. AND LICENSE TO OPERATE

1. The owner must fill out applications and pay required fees for on-site sewage facilities.

2. The site evaluator will make an evaluation and issue specification requirements of the on-site evaluation and issue specification requirements for the on-site facility according to TCEQ rules and requirements.

3. The installer must submit to Jones County the completed Installer Checklist and a Plot Plan based on the specifications required from the site evaluation. After the information is reviewed and approved, a PERMIT TO CONSTRUCT is issued, the on-site sewage facility may not begin before this permit is issued or oral permission has been given by site evaluator.

4. Once the PERMIT TO CONSTRUCT is issued, the on-site sewage facility may be installed ONLY according to the approved plan design. Any proposed changes will require prior notification to the site evaluator before construction can begin.

5. After final inspection by Jones County, the property owner will be issued a LICENSE TO OPERATE the on-site sewage facility. The LICENSE TO OPERATE will be sent to the permanent mailing address listed on the permit application.

6. Any system installation other than a standard absorption system will require that an Affidavit To The Public be filed on the property owner's deed before a License to Operate the system will be issued, i.e., an Aerobic System.

7. The final grade shall be covered with vegetation fully capable of providing maximum transpiration. Evergreen bushes having a shallow root system may be planted in the drain-field to assist in water uptake. Grasses with dormant periods shall be over-seeded to provide year-round transpiration.

8. System installation requires a licensed installer or may be installed solely the homeowner that lives in the home attached to the on-site facility.

Schematic of Lot or Tract

Show:

Compass North, adjacent streets, property lines, property dimensions, location of buildings, easements, swimming pools, water lines and other surface improvements where known (drainage, patios, sidewalks).
Location of existing or proposed water wells within 150 feet of property.
Indicate slope or provide contour lines from the structure to the farthest location of the proposed soil absorption or irrigation area.
Location of soil borings or dug pits (show location with respect to a known reference point.)
Location of natural, constructed, or proposed drainage ways, (streams, ponds, lakes, rivers, high tide of salt water bodies) water impoundment areas, cut or fill bank, slopes or breaks.

Lot Size:_____ acres

Features of Site Area

Presence of 100 year flood zone	Yes_____	No_____
Presence of adjacent ponds, streams, water impoundments	Yes_____	No_____
Existing or proposed water well in nearby area	Yes_____	No_____
Organized sewage service available to lot or tract	Yes_____	No_____

On-Site Sewerage Facility
Soil Evaluation Report Information

Date Soil Survey Performed: _____

Site Location: _____

County: _____ Proposed Excavation Depth: _____

Name of Site Evaluator: _____ Registration Number: _____

Requirements:

At least two soil excavations must be performed on the site at opposite ends of the proposed disposal area. Locations of soil boring or dug pits must be shown on the site drawing.

For subsurface disposal, soil evaluations must be performed to a depth of at least two feet below the proposed excavation depth. For surface disposal, the surface horizon must be evaluated.

Describe each soil horizon and identify any restrictive features on the form. Indicate depths where features appear.

Soil Boring Number

Depth (Feet)	Texture Class	Soil Texture	Structure (For Class 111. blocky, platy or masxive)	Drainage (Mottled Water Table)	Restrictive Horizon	Observations
0 1 2 3 4 5						

Soil Boring Number

Depth (Feet)	Texture Class	Soil Texture	Structure (For 11tklockyt platy or magdee)	Drainage (Mottles] Water Table)	Restrictive Horizon	Observations
0 1 2 3 4 5						

I certify that the findings of this report are based on my field observations and are accurate to the best of my ability.
